

Mineral Fact Sheet

Zinc oxide		
Formula:	ZnO	
CAS No.:	1314-13-2	
EC No.:	225-222-5	
Feed Additive Register:	E 6	
Manufacturing Process: special pyrogenic process		
Characteristics:		
Zinc	75 %	
Appearance	white to yellow-brownish powder	
Apparent density	2 kg/l	
Handling, storage, toxicity:		
Non toxic		
Store in dry place.		
Specific information:		
Free flowing, high apparent density, ideal miscibility, good assimilability		
Feed operators using Zn compounds need to be registered according Reg. 183/2005.		
Conditions for use are laid down in Reg. 1334/2003.
