

Mineral Fact Sheet

Sepiolite	
Formula: $Mg_4Si_6O_{15}(OH)_2 \cdot 6 H_2O$	
CAS No.: 638000-37-3	
EC No.: 264-465-3	
Feed Additive Register: E 562	
Manufacturing Process: Crushing, grinding, drying and grading	
Characteristics:	
Sepiolite	> 60%
Moisture	< 12%
pH	8.5 + 0.5
Appearance	Grayish
Particle size	fine powder or granular particles
Bulk Density	0.64 - 0,78 g/cm ²
Handling, storage, toxicity	
Non toxic	
Store in dry place	
Provide adequate ventilation to avoid dust formation	
Specific information:	
Binder for granulated feed	
Anticaking and carrier for premixes	
Free flowing agent
